

## DRILL RIG OPERATORS & OFFSIDERS

- **Sydney & Auckland Base with travel**
- **Brand new plant and equipment needs owners!!!**
- **Great packages - based on experience**

We are undergoing rapid expansion and are looking for experienced drillers who want to work for a professional organisation with state of the art technology; successful applicants will want to get involved in different aspects of the construction business, in Sydney & Auckland as well as surrounding areas, including Asia and the Pacific.

We are looking for operators and offsiders to be heavily involved in tensioned rock anchoring, soil nailing, mini piling and drainage drilling. Relevant experience in any or all of these fields **is** essential as understanding concrete and grout pumping and operations.

Training and development of staff is a priority for Geovert and you will be given the opportunity to develop fully within our organisation, working on a variety of projects with the potential opportunity to travel as work expands.

### **Experience and knowledge of the following is essential:**

- on site problem solving
- organising and leadership of drill teams
- drilling techniques for a variety of ground conditions
- auger drilling
- grout plant operation
- down hole hammer drilling
- Push casing techniques
- Strand anchoring, rock bolting and soil nailing
- training and supervision of offsiders/drillers
- understanding of construction industry
- understanding ground support techniques
- drill rig maintenance and repair

If you have the required experience and are looking for an opportunity to develop within an exceptional company as it expands, and work on a variety of interesting and challenging projects, **we want to talk to you.**
