

DRILLERS

Geovert is a contractor providing services in Ground Support in Civil Construction. We are currently seeking a number of experienced Drillers to join our project team in Sydney, Australia.

The position provides Drilling on Geovert projects as directed by the Site Supervisor & Construction Manager. The role will involve the following:

Drilling using compressed air & hydraulic drill rigs and excavator mounted hydraulic masts in conjunction with casing systems, DTH hammers, speed rods and hollow bar drill systems.

The applicants shall be physically fit and will be required to undertake and pass a pre-employment medical that will include drug and alcohol screening.

You must be able to illustrate previous experience, knowledge & certificates in the following:

Construction Industry Card

Current drivers license / HR license

Previous experience working within the construction industry.

A current excavator license would be an advantage, as would experience of SoilMec and Beretta drill rigs.

If you have an interest in this role, meet the above skill criteria and would like to know more of this opportunity, please send your covering letter and resume to careers@geovert.com in MS Word format.
